Other News

Please note that in addition to the traditional 999 or 101 we can be contacted on our email address is snafiley@northyorkshire.pnn.police.uk. Please do not report incidents to this email, but if you would like to speak to a member of our team for advice then please use it. Incidents can also be reported direct on www.northyorkshire.police.uk

If an incident of Anti-Social Behaviour occurs which you would like Police to deal with then please report this as soon as possible after the event to allow Officers the best chance to deal with the culprits. Please do not wait until next time you happen to bump into an Officer or Parish Councillor. It allows us to make connections with other incidents and deal with individuals for patterns of behaviour rather than incidents in isolation. It does not matter if no suspects have been seen or cannot be identified; we may have this reported on another nearby incident and be able to link them.

Community Safety Advice – October 2023

Let's follow on from where we left off in the September report where the topic was cybercrime; this month's topic is bogus callers and distraction burglars.

Who are Bogus Callers?

Bogus callers are people who come to your home and pretend to be something they are not – it's that simple Or is it? If you had a visit from a chap (or lady) who looked like they were in uniform of either Emergency Services and/or utility workmen, you would easily think that you are safe ... they are Emergency Services, right? Well maybe not!

Always check the ID of anyone "official" you do not know who comes to your door, especially if they are giving you information you are not aware of. If they are genuine, they will not mind staying on your doorstep while you call the company, they are saying they are from; but the important thing is **do not open the door to let them in!** Leave them on the doorstep while you carry out checks – and don't use any numbers they may give you, get it from the phone book, or better still, keep a list of "handy numbers" by your home phone, for such occurrences. Check their ID card to ensure it is genuine by getting them to put it up against the locked door or window. The best way to keep yourself safe, is to set up security passwords with your utility companies; that way they will give you a password, so you know they are genuine.

Someone coming to your home may even try to sell you wares that you do not want. Your door is your first line of defence – if **unsure, do NOT open the door, do NOT let them in.**

Could be someone offering to carry out work at your property as we have looked at earlier. **Same rule applies; do NOT let them in;** either send them away immediately, or if you feel you can take a mental description, and as soon as you have sent them on their way, contact the Police (if appropriate) or the County Council (Trading Standards) and give them the description of persons and/or vehicles.

For security, fit good window and door locks to protect your home. Even consider CCTV or a door camera so that you can monitor visitors to your home.

NEVER let anyone drive you to a cashpoint to withdraw money who isn't part of your security bubble. #KeepYourselfSafe #KeepOthersSafe.

Distraction Burglars

This is where they gain access to your home with what may sound a feasible reason; there are usually more than one – one to distract you, the other to commit burglary and get your personal belongings. They use the excuse of doing a survey that might save you money ... yeh, right!! Sadly though, they do often use our own greed against us, as stated before we all want something for nowt, don't we!

So follow this advice and it should keep you safe and sound in your home

- **LOCK** - Keep your front and back doors locked even when you are at home.
- **STOP** - Before you answer, stop and think whether you are expecting anyone. Check you have locked the back door and taken the key out. Look through a spy hole or window to see who the caller is.
- **CHAIN** - If you decide to open the door, put the chain or door bar on first, if you have one. Keep the chain or bar on while you are talking to the caller. With PVC doors, it can be difficult and costly to fit a door chain, consider fitting a Secure Ring instead.
- **FIRE SAFETY** - Only put on your door chain as you answer the door, don't keep it on all the time as this could delay your exit in case of fire.
- **CHECK** - Look at their clothing. Some official callers will have a uniform bearing their organisation name or logo. Even if the caller has a pre-arranged appointment with you, check their identification card carefully. Close the door while you do this. If you are still unsure, call the company concerned to verify their representative's identity. If you're still not sure ask the caller to come back later when someone is with you.

If you wish to become a member of the Derwent & Hertford Rural WhatsApp Group to keep yourself and your area safe, please contact PCSOs Lockey or Wilkinson or PC Bilton on 101.

Until next time Stay Safe out there!
